Mr. John A. Burton,
2946 Sacramento St.,
Berkley, California

Dear Sir:

Your letter of August 7th received.

The Eagles are now in the mist of a very serious drive to try and win the Negro National League pennant, and I would not want to inject anything elst into the games at this time. Maybe next season we will be able to work out something if Mr. Washington will be in this neighborhood, and would be interested in playing ball.

Very truly yours,
